

## RealDolmen and Informatica sign strategic partnership

Huizingen, July 26 2010 - **RealDolmen announced that it has signed a partner agreement with Informatica and becomes an authorized distributor for Belgium & Luxembourg.**

RealDolmen's offering now also includes all solutions part of the Informatica platform, including Data Integration, Data Quality, B2B Data Exchange, Information Lifecycle Management, Cloud Data Integration, Complex Event Processing, Master Data Management and Ultra Low Latency Messaging.

The Informatica Platform is the first comprehensive, unified, and open software platform specifically designed for data integration. Our open, platform-neutral software accesses data of virtually all types and makes it accessible, meaningful, and usable to the people and processes that need it. With products that encourage collaboration across the enterprise, Informatica reduces costs, speeds time to results, and scales to handle data integration projects of any size or complexity. This offering is a perfect match for our customers and partners with data integration requirements.

RealDolmen supports these industry-leading solutions with a comprehensive and customizable set of professional, education, and customer support services to help customers and partners maximize the value of Informatica software in their environment.
