17u30	Wrap-up - RECEPTIE

A wide-angle, slightly blurred photograph of the main concourse of Grand Central Terminal in New York City. The scene is filled with people walking, some carrying luggage. In the center, there is a prominent circular information kiosk with a glowing globe on top. The architecture features high ceilings with large, ornate windows and classical columns. The overall atmosphere is busy and modern.

MAKE ICT
MORE HUMAN
AGAIN

MAKE ICT
WORK
FOR YOUR BUSINESS

OUR HIGHER PURPOSE
is to help realize the
potential of PEOPLE
and ORGANIZATIONS.

IN EVERYTHING WE DO, WE DISTINGUISH OURSELVES BY
