Frequently asked questions

Which devices are accepted for trade in and what are the conditions required?

Currently, any laptops, tablets, or phones – no matter their operating system – can be traded in. All devices must have battery and battery cover, power on and take a charge, have an intact and fully functioning screen, and be free from water damage.

Is there a minimum number of trade-in devices?

We need a minimum of 5 devices to participate in this programme.

What information is needed on a quote request?

You'll need the make and model of each device, along with the quantity.

Our data is extremely sensitive. How can I be sure it will be removed completely?

The data-wiping tools used have been researched and selected to ensure all data is removed. This is underwritten by the global cyber insurance policy. Should you choose, certificates of data-wipe by device and IMEI number can also be provided.
