

RealDolmen continues to invest in Security!

RealDolmen achieves silver CCSP Check Point partner status and invests further in its Security offer for the Belgian Enterprise Market.

Today, RealDolmen holds a prominent position as provider of integrated Security solutions in Belgium. To accelerate further growth in the Enterprise market sector, RealDolmen continues to invest in its relationship with Check Point.

In this framework, RealDolmen has achieved the status of Certified Collaborative Support Partner (CCSP) of Check Point. In addition, the company's partner status has progressed to the 'Silver' level.

The CCSP status is awarded by Check Point. It is based on very strict criteria. That is why the accreditation is only awarded to a select number of distributors and resellers. Check Point CCSP Partners have the capability to escalate technical support inquiries directly to the Technical Assistance Centres (TAC) and thus make it possible to provide better and quicker support to the numerous Check Point and Nokia customers.
