

**GIVE YOUR EMPLOYEES A BOOST.  
STARTING WITH YOUR WORKPLACE.**

Realdolmen helps you to achieve maximum efficiency and productivity.

As a leader in your field, you count on innovation and technological developments day in, day out to stay competitive in a rapidly changing business climate. A **future-proof work environment** is essential to this. In the digital workplace of the future, the employee is central.

**Workplace as a Service** from Realdolmen gives your employees the right tools for maximum performance, while making the operational management of your workplace easier. Premium hardware, software and services for the next-gen digital workplace in an easy-to-use service model. Choose a package to suit you and easily scale up and down depending on your needs.

## Invest in the best device

The digital workplace of the future is **hyper-personalized and high-tech**. Our workplace-as-a-service solution will enable the productivity of your employees to reach new heights.

When you lease equipment from Realdolmen, you get the latest devices in a **flexible pay-as-you-use-model**. You will be using next-gen technology from premium brands on the best possible terms. *Desk-centric or always on the go?* Settle on the right device for each staff member with Realdolmen.

## Optimize your workplace

Outdated software applications act as a brake on your business. Choose Realdolmen and maximize **connectivity and efficiency** for your business. Cloud-based Microsoft 365 applications ensure every employee has the right tools wherever they are working and on whatever device they are using.

Want to integrate your current CRM or ERP package into a modern workplace?

**Application management services** from Realdolmen help you to avoid downtime and slow apps, and ensure you are always working with the latest software to get the best results.

## COMPLETE PEACE OF MIND

The quest for greater efficiency is not relevant for the workplace alone; efficiency also plays a significant role in **operational IT management**. The number of different types of endpoint devices and applications has grown significantly, with the result that managing your IT environment is becoming more and more complex. At the same time, first line support requests are a constant feature. IT management takes up a great deal of time and resources that you would prefer to spend on innovation and technological development. This represents a major challenge for many IT departments:

83%

OF COMPANIES USE  
BETWEEN 3 AND 9  
DIFFERENT ENDPOINT  
MANAGEMENT TOOLS

75%

OF COMPANIES ARE  
BEHIND SCHEDULE  
WITH THE INSTALLATION  
OF SECURITY PATCHES

60%

OF IT MANAGERS SAY  
THAT THEY SPEND  
TOO MUCH TIME ON  
DEVICE MANAGEMENT

The service hatch provided by Workplace as a Service gives your IT department **breathing space**. Customize your package in a flexible manner based on your needs. From your security system to your operating system and devices, Realdolmen gives you complete peace of mind.

# REALDOLMEN: WORKPLACE AS A SERVICE IN 5 CLEAR PACKAGES

## Device Life Cycle

Key services for your employees' devices are taken care of. Devices are supported, maintained and replaced where necessary, and you can rely on the Realdolmen back-up system.

## Operating System Life Cycle

Device operating systems are managed in addition to the devices themselves. Updates and patches are installed and licenses are optimized.

|                     |   |   |
