relevant service description in the list below.

To search for support articles and information, see [Office Support](#).

Note

If you're looking for the Service Description comparison spreadsheet, it has been retired. The product feature availability tables on each Service Description page have been updated to better help you choose the version of Office 365 that suits your needs.

Microsoft offers the Office 365 Onboarding benefit for eligible services in eligible plans. The Onboarding benefit lets you work remotely with Microsoft specialists to get your Office 365 environment ready for use. For more information, see [Office 365 Onboarding Benefit](#).

To get started, see the following service descriptions:

O365 & M365 – Versions, editions and features

- Your app settings: Office 365, Mail, Calendar, People, Yammer

Restore your OneDrive

If something went wrong, you can restore your OneDrive to a previous time. Select a date preset or use the slider to find a date with unusual activity in the chart. Then select the changes that you want to undo.

Select a date

Restore

Cancel

Move the slider to quickly scroll the list to a day.

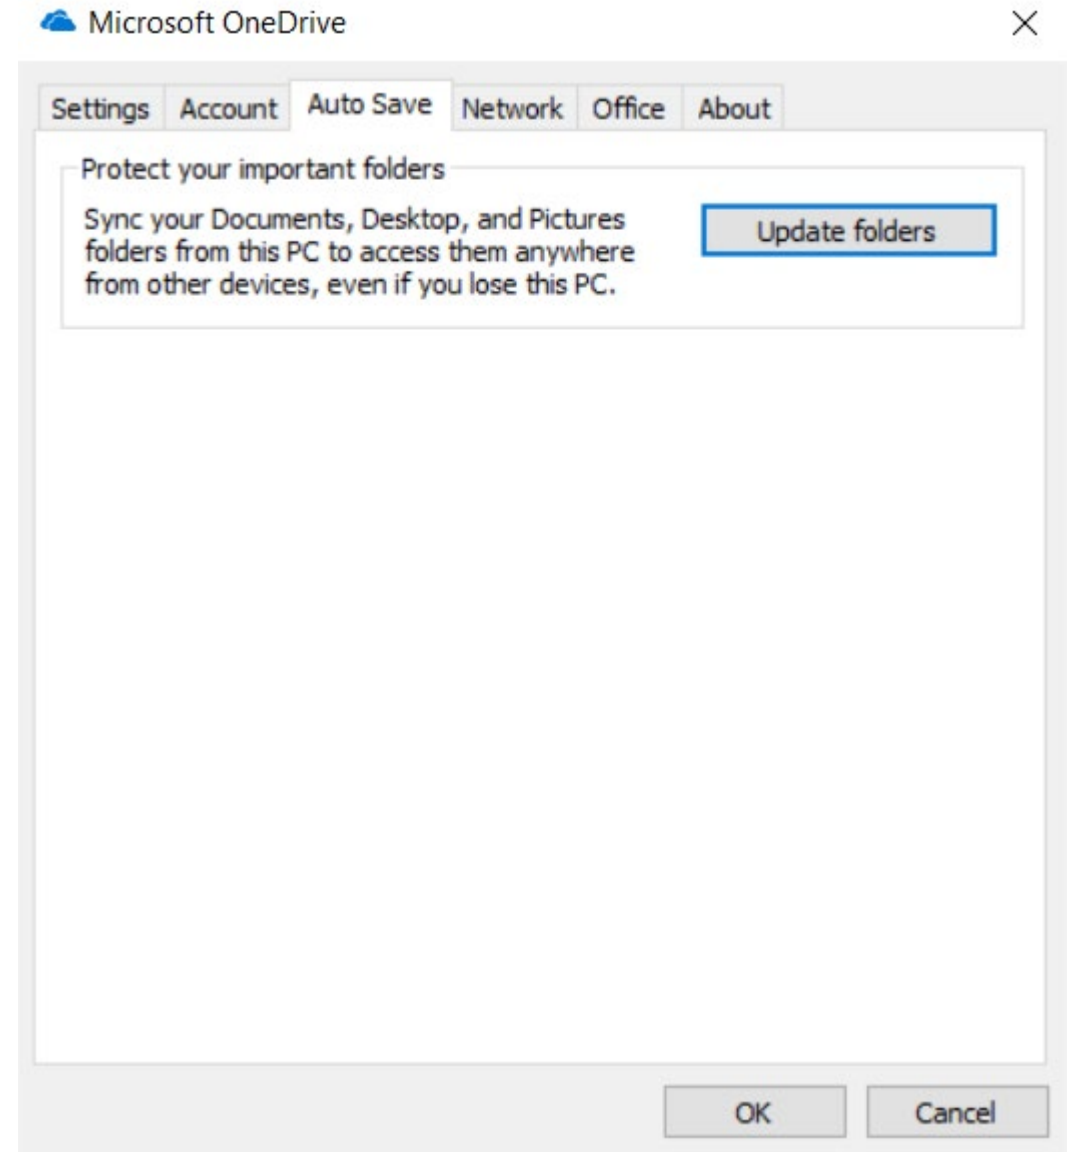

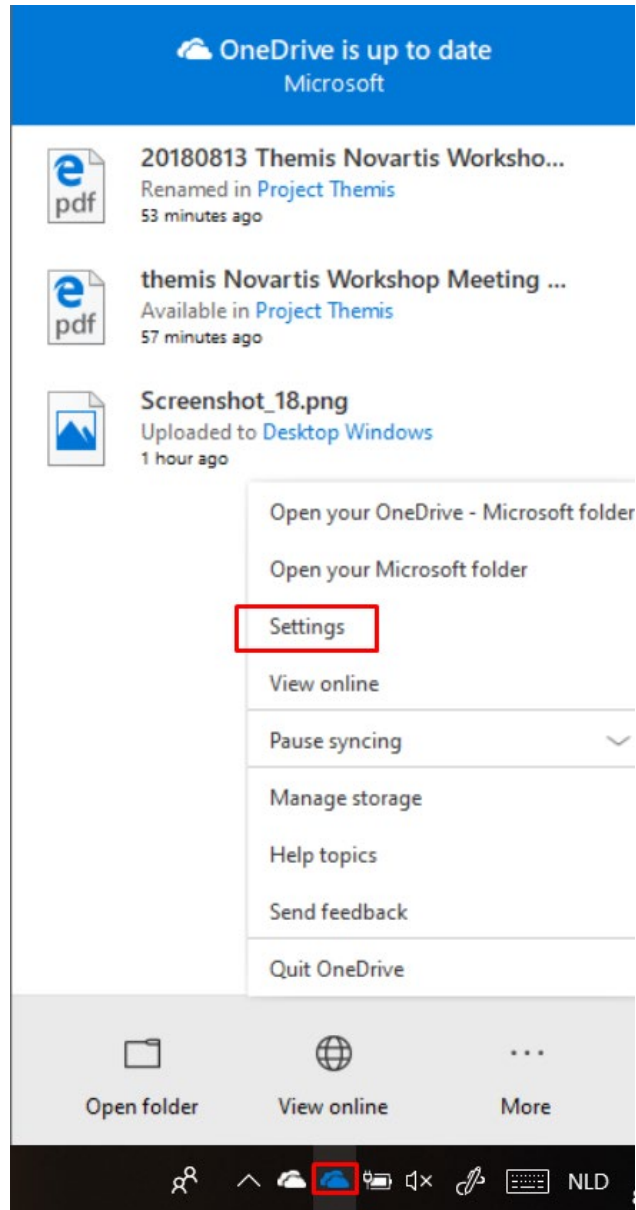

Select a change in the list below to highlight it and all the changes before it. Then select the Restore button to undo all the highlighted changes.

 **Your IT department protected your folders** ✕

Your Documents, Pictures, and Desktop folders are protected in OneDrive so you can get to them even if you lose this PC.

Known Folder Move (OneDrive) – How?

Using Computer Configuration Policies – available now

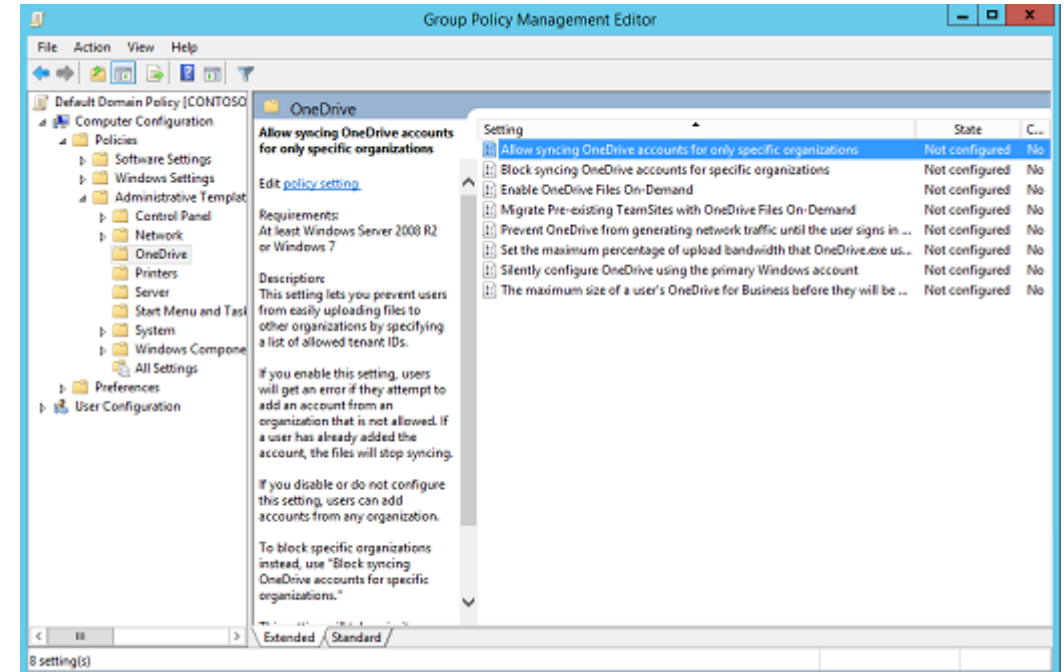

Using Intune – later this year

The following Computer Configuration policies are available:

- *Allow syncing OneDrive accounts for only specific organizations*
- *Block syncing OneDrive accounts for specific organizations*
- *Enable OneDrive Files On-Demand*
- *Migrate pre-existing team sites with OneDrive Files On-Demand*
- *Prevent OneDrive from generating network traffic until the user signs in to OneDrive*
- *Set the maximum percentage of upload bandwidth that OneDrive.exe uses*
- *Silently configure OneDrive using Windows 10 or domain credentials*
- *Configure the maximum OneDrive size for downloading all files automatically*

Known Folder Move policies:

- **Prompt users** to move Windows known folders to OneDrive
- **Silently redirect** Windows known folders to OneDrive
- Prevent users from redirecting their Windows known folders to their PC
- Prevent users from moving their Windows known folders to OneDrive
